1 Cut along each dashed line, from the scissors to the picture.

There is nothing to check on this page. What matters is that your child opens and closes the scissors smoothly and turns the paper with the helper hand.

The lines, from easiest to hardest: two straight lines, waves, a zigzag, bridges, and steps. The straight lines come first on purpose; move down the page only when they feel easy.

Safety: use child-safe scissors with rounded tips and stay close by. Small, crooked cuts are completely normal at this age.
