1 Trace the dotted lines, from left to right.

There is nothing to check on this page. What matters is that your child traces slowly along the dots, from left to right.

Practiced today: a straight line, waves, hills, a zigzag, loops, and steps. These are the same strokes that later make letters: straight lines for l and t, curves for c and s, zigzags for v and w.

Wobbly lines are normal at three and four. Take a short break between rows if little hands get tired.
